SUMMARY

Software Engineer specializing in Conversational AI and IVR application development, building production-grade solutions for enterprise clients using Omilia's OCP platform. Proficient in JavaScript, Bash scripting, and AI-assisted development with hands-on experience in automated testing and deployment. MSc in Big Data & Networked Systems with a focus on Deep Learning.

EXPERIENCE

Omilia

Remote

Software Engineer - Conversational AI Application Developer

March 2025 - Present

- Design and develop IVR (Interactive Voice Response) applications for enterprise clients using Omilia's OCP platform.
- Implement application logic and complex call-flow scenarios in JavaScript, covering business rules and dynamic dialogue management.
- Leverage Cursor IDE and Claude AI to accelerate development velocity and maintain high code quality.
- Write and maintain Bash automation scripts for deployment, environment configuration, and operational workflows.
- Build and execute automated regression test suites using Omilia Testing Studio with YAML-defined test cases.
- Collaborate with clients and cross-functional teams to translate requirements into production-ready conversational AI solutions.
- Deployed on-site to Sydney, Australia (February 2026) to provide direct implementation support for Optus, assisting in the delivery of a large-scale Conversational AI solution for a public sector project.

European Dynamics

Remote

Application Support Analyst | SL2 Support | IT Consultant

June 2024 - March 2025

- Provided SL2 technical support ensuring system stability and issue resolution within defined SLAs.
- Monitored system performance using Grafana; identified and escalated incidents to minimize downtime.
- Resolved technical tickets via ServiceNow in close collaboration with developers and business analysts.

DonDigital.gr

Igoumenitsa, GR

Front-end Developer (Freelance)

April 2024 - June 2024

- Maintained and enhanced e-commerce websites for multiple clients using WordPress, WooCommerce, CSS, and JavaScript.
- Delivered UI improvements and plugin integrations to improve usability and client satisfaction.

.COM Business Computing

Igoumenitsa, GR

Web Developer & Technician

March 2023 - April 2024

- Managed client websites built on WordPress and provided hardware/software technical support.

EDUCATION

Ionian University

MSc, Big Data & Networked Systems

Corfu, GR

Graduated February 2024

- Thesis: Bitcoin Price Prediction Using Deep Learning

Ionian University

BSc, Informatics

Corfu, GR

Graduated May 2022

- Thesis: Mapography Mobile Crowdsensing Application Demo

SKILLS

Conversational AI & IVR: Omilia OCP Platform, IVR Design, Call-flow Development, Dialogue Management

Programming & Scripting: JavaScript, Bash, Python, HTML, CSS

AI-Assisted Development: Cursor IDE, Claude AI

Testing & QA: Omilia Testing Studio, YAML Test Definitions, Regression Testing

Web Development: WordPress, WooCommerce, Flutter, Firebase

Monitoring & Support: Grafana, ServiceNow, Bugzilla

Version Control & Tools: Git, GitHub, Microsoft Teams, Atlassian Confluence

Data & Machine Learning: Deep Learning, Big Data (MSc-level), Python

Languages: Greek (Native), English (Professional), German

SELECTED PROJECTS

Bitcoin Price Prediction - Deep Learning

[Link](#)

MSc Thesis

May 2023 - Jan 2024

- Researched and implemented ARIMA, SVM, and LSTM models to predict Bitcoin prices from historical market data.
- Focused on time-series feature engineering and model performance comparison.

LocalTaste Mobile App

[Link](#)

Mobile App Development Team Lead

Feb 2023 - Jul 2023

- Led a 3-person team developing a Flutter/Firebase mobile app showcasing local Corfu recipes and food products.
- Owned full UI/UX design and coordinated team to meet quality standards and delivery deadlines.
